## THE INITIATIVE AND REFERENDUM

What the Terms Mean in Common Action.

### ACT LIKE POKER AND CLUB

In Compelling or Annulling Legislation in Behalf of the People.

#### LINCOLN'S PROPHECIC WORDS

**INITIATIVE**—If the lawmakers of a city or State fail to enact laws demanded by the public, a petition signed by a certain percentage of voters is filed and the proposed law is said to be initiated. The people then vote on it at the next election, or at a special election, and if it carries, it is law, in spite of the legislature.

**REFERENDUM**—If the legislature or council enacts a law which is not liked, a petition may be filed and the operation of the law is suspended until it can be referred to the people at a general election. Then, unless a majority vote for it, the law is a dead letter.

The initiative cures the bad habit of letting good laws die in pigeon-holes. It is a good poker for use on lax law makers.

The referendum ruins the business of the lobbyist and grafter, because a crooked legislature cannot

"deliver the goods." It is a fine club for use on crooks.

These two weapons of popular government are especially useful in the matter of franchise grabs and crooked tax laws.

#### Prophetic Words of Lincoln.

"I heard President Lincoln tell General Grant and General Meade toward the end of the war that the initiative and referendum was bound to become universal in the United States," says A. H. McCormick, Kansas legislator and Union army veteran.

"In General Meade's tent, while waiting during a thunder shower, and after I had delivered a message to the General, President Lincoln, evidently continuing a conversation interrupted by my arrival, turned to General Grant and said:

"General, the day will come, but it will not be in your day or mine, when every State in the Union will have the initiative and referendum. When that day comes, the people will rule—the people will rule!" As he said this he brought his fist down on the table with such vehemence that he overturned the ink bottle."

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by all dealers.

PEOPLE TO KNOW ABOUT  
—TOLD IN HUMAN LIFE

This department in Human Life for December is filled with incident, anecdote and episode of the most interesting men and women of the day. Among those mentioned are:

John C. Stubbs, vice-president and director of traffic for half a dozen big railroads, with a skyscraper salary—one of the greatest freight-getters the world has ever known. This dynamo of human energy sprang from a little farm in Ohio. His story is a good one.

A prophet of simpler and saner living, who preaches his faith in a unique and practical way, is Gustav Stickley. Through his writings and his handcraft he seeks to teach men to distinguish between the essentials of life and the things that merely burden.

If "genius is the ability to make friends with your work," then the man who not only does this but induces every one of his thousands of employes to make friends with his work, must be a peg above a genius. The story of W. H. Brown, head of one of the great industries of this country, shows how he accomplishes this difficult feat.

Berton Bralley is a young poet whose verse has such a genuine western flavor that it makes natives of the "wild and woolly" want to go home to their hills. The sketch of his varied career from miner to poet is replete with interest.

Mayor Porter of Kansas City was a policeman at one stage of his career, and his climb up the ladder, round after round, from cop to the mayor's chair, shows that he has those sterling qualities which make for success.

Present constitution adopted February 5, 1857.

Republic consists of 26 states, one territory and a federal district.

The Republic of Mexico was declared independent February 24, 1821; established as an empire, under Iturbide, in 1822, and proclaimed a republic by Santa Ana, December 2, 1822. Iturbide abdicated March 20, 1823. The Mexican flag—green, white and red—was adopted. The first constitution was formulated in 1823 and 1824, and was proclaimed October 4, 1824. Guadalupe Victoria was elected the first President.

The Texas revolution of 1836 was successful, and the Mexican War established the annexation of Texas to the United States.

The French-English-Spanish intervention in 1861, during the Presidency of Juarez, brought about the Second Empire. The war brought out Porfirio Diaz as a Republican leader. The army of intervention captured the City of Mexico in May, 1863. Juarez and Diaz retiring to San Luis Potosi and establishing the republican capital. In April, 1864, Archduke Maximilian was proclaimed Emperor of Mexico, and reigned two years.

In 1863 the French withdrew from Mexico. Juarez and Diaz reorganized the army of the republic and advanced on the City of Mexico. The city was captured on May 15, 1867, and Maximilian surrendered. He was court-martialed, sentenced to death and executed on June 19, 1867. Juarez was elected President in August and re-elected in 1871. He died July 18, 1872, and Tejada, President of the Supreme Court, completed the term.

The constitutional amendments of September, 1873, led to a revolution headed by Iglesias. Diaz was made Commander in Chief of the army, and defeated the revolutionists. Was proclaimed Provisional President at the elections in April, 1877, to hold office until November, 1880. He declined re-election, and in 1880 Gonzalez was elected President. Diaz was again elected in 1884, and was re-elected in 1888, 1892, 1896, 1900, 1904 and 1908.

The Republic of Mexico consists of 26 states, one territory and one Federal district. The national capital is the City of Mexico. The state governments, like those of the Federal Government, are divided into three parts—the executive or Governor, the Legislature and the judiciary. The Governor and Legislature are elected by the people and the judiciary are appointed.

Mexico abounds in mineral resources. In 1907 Mexico led the world in the production of silver, producing nearly \$40,000,000. In the same year gold to the value of \$18,000,000 was produced, giving the country sixth rank among the gold-producing nations of the world. Iron, copper, lead, quicksilver, zinc, tin, cobalt and nickel also are mined extensively. The value of exports last year amounted to nearly \$125,000,000. The aggregate capital of Mexican banks is about \$100,000,000. The building of railroads is progressing rapidly. In 1876 Mexico had 367 miles of railroad, and this had increased by 1908 to nearly 15,000 miles.—[Chicago Tribune.]

## NO REASON FOR IT.

When Hartford Citizens Show the Certain Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of diabetes or any kidney ills, when relief is so near at hand and the most positive proof given that they can be cured. Read what a Hartford citizen says:

J. F. Hicks, Hartford, R. F. D. No. 5, says: "For twelve years my kidneys were disordered. I became tired easily, was often extremely nervous and suffered from a dull pain through the small of my back. I was also subject to dizzy spells, during which there was a blurring of my sight. The secretions from my kidneys were too frequent in passage and greatly disturbed my rest. I was so much impressed with the advertisement I read regarding Doan's Kidney Pills that I procured a supply and am glad to say that it was not long before they helped me. The contents of two boxes of this remedy effected a cure. I have no hesitation in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
